

# UWF Libraries Website Statistics

## Executive Summary 2007

(1 year: January 2007- January 2008)

### Number of Virtual Visits

**Number of Virtual Visits to the library's website: 3,207,418 \*\***

\*\* This exclude virtual visits from within the library building, Library IPs, search engine spiders and uses our statistical software's algorithm for visits called "Pageviews" . The virtual visits number which may be repeat visitors on different days come from "115,839" unique IP addresses.

**Number of Virtual Visits to library's catalog: 48,000** (Approximate)

As the catalog switched from Aleph to Endeca this year, the Endeca "virtual visit" category we are drawing from is monthly "Total Unique Sessions". These statistics are taken from the new UWF catalog "Endeca" and uses the Endeca statistical category for unique IP addresses.

**Does this exclude virtual visits from inside the library (Yes or No?) Yes\*\*.**

\*\* These statistics exclude virtual visits from the library website number but includes them for the library catalog number (different statistical packages used as these are different systems: FCLA Gainesville for Endeca and local Weblog software for UWF library website)

### Number and Size of Library Digital Collections

**Number of Digital Collections: 4\*\***

\*\*Archon <http://fusionmx.lib.uwf.edu/archon/>

UWF 40<sup>th</sup> Anniversary Visual History <http://librarydigitalservices.uwf.edu/anniversary/>

West Florida Photohistory (Bell Digital Images) <http://palmm2.fcla.edu/wfp/>

Florida Heritage Project: We contributed scanned materials of Florida related books/magazines/etc. to the **Florida Heritage Project** from 2001 – 2004 –

<http://wf.catalog.fcla.edu/wf.jsp> These items show up in our catalog if a user is searching for a particular title and we have scanned it .

#### Size (in megabytes)

Florida Heritage = 20133 pages scanned x average 5 MB per page = **100 G**

Archon = 1.8 MB of web server files + 38.2 MB of MySQL database files = **40 MB**

40th Anniversary = 28.9 MB of web server files + 1.66 MB of MySQL database files = **30.6 MB**

Bell Collection = 20358 images x average 25 MB per image = **509 GB**

#### Items

Florida Heritage = 20133 pages scanned

Archon = 280 Special Collections Finding Aids (EADs)/1.8 MB of web server files

40th Anniversary = 300 annotated images

Bell Collection = 20358 images

## Scope and General Nature of UWF Digital Collections

UWF Libraries <http://library.uwf.edu> digital library collections are relatively new and in a state of development. The oldest collection, **the Bell Photo History Archive or West Florida Photohistory Collection** <http://palmm2.fcla.edu/wfp/> , consists of approximately 20358 images with accompanying metadata. This application is hosted through Ex Libris's Digitool on the Florida Computing Library Association Server and is part of the shared State University Libraries of Florida PALMM project (Publication of Archival Library and Museum Materials <http://palmm.fcla.edu/> . A second more recent **University of West Florida 40<sup>th</sup> Anniversary Image Archive (2007)** consists of approximately 300 annotated images from the past 40 years of the Universities history as an interactive organic digital archive <http://librarydigitalservices.uwf.edu/anniversary/> . This application was accomplished as an opensource Moveable Type engine optimized to operate as an interactive image archive. A third collection is called **The UWF Archives Special Collections Holdings Databases** <http://fusionmx.lib.uwf.edu/archon/> This collection consists of searchable finding aids (EADs) of 700 individual collections making up the West Florida Archives and Special Collections. This digital collection was done through the Open Source UIUC product, Archon. The University of West Florida is also part of the **Florida Heritage Digital Collection** and these scanned digital artifacts (20133 pages) can be found through the library catalog <http://wf.catalog.fcla.edu/wf.jsp>

## Use of Digital Library Collections

### Number of times items accessed?

West Florida Photohistory (Bell Collection) = 85 Citations + 1371 image displays = 1456

### Number of queries conducted?

3445 searches of West Florida Heritage/Bell Collections\*

\* Data taken from FCLA statistics

## Digital Collections Access

UWF Libraries digital collections may be accessed through a number of library online access points both locally and through state portals and avenues. Locally, digital collections may be accessed through the libraries servers on the library website at <http://library.uwf.edu> and through extended shared state servers on both the PALMM project (FCLA) <http://palmm.fcla.edu/> . Most readily, most local digital collections may be accessed through the university library's main website (library.uwf.edu), the Department of Special Collections Page (<http://library.uwf.edu/About/SpecialCollections/SpecialCollections.htm>) or the Library's main "Research page (<http://library.uwf.edu/Research.htm>) Alternatively, online patrons may access UWF's digital photohistory collections through the state PALMM (Publication of Archival Library and Museum Materials) portal <http://palmm.fcla.edu/> and state Archives Florida <http://palmm.fcla.edu/afl/> gateways.
